Judging by the past the call of the Red Cross means the spening of the pocketbooks.

#### FIGHTING CHILD LABOR.

Those who have stood back of child legislation through thick and thin may be disappointed by the decision of the United States supreme court, but they are not discouraged. They believe that there should be such protection given to the children as is provided for nder the child labor law, but they are not as rabid as to believe that they sught to be allowed to violate the Con-Militation. They had not undertaken their protective effort in the belief that was a violation of the fundamental lose by which this nation is governed, but mammuch as the pun they had sup-

Now that one automobilist has suc ported is declared to be so, their efforts creded in wrecking a train by a collision must be continued, but in another direct at a grade crossing, probably others will strive to go him one better by in-

wall be directed in more than one ave-Fresident Harding's decision that the less. The cay of the children for relief Leviathan should not experience a

marconed in a station of a small rail-road junction. While waiting for a be-atted train I tried to improve my mind with what intellectual food the place aforded. The walls were bare and dingy, single billboard was these whose no-ces were almost illegible with grime and on tices were almost illegible with grime and dirt. This one, however, struck my notice: "When you see it—do it—STOP! This sign means just what it says. Don't take chances with a railroad train. It runs on steel rails—and can't jodge you!" Wasn't there a great deal of common acuse in that notice? When a railroad signals to stop, there is but one thing to do than and there, and that is to stop. We would do well to heed that signal along many other lines. When the little hacking cough comes on and it persists in hacking—then do k—that is, stop and realize what the end will be if you don't tend to it. If you have a cavity in your tooth, remember that it runs on steel rails and can't dodge you with its pain and discomfort. Are heart, lungs, liver, kidneys and blood all right? Look out for the signal!

Underneath this, and equally dingy, was the following: "Every time is train time at grade crossings. A moment of carelessness may mean a lifetime of regret." That aimply means one can't afford to be off his guard a single moment in these days with the control of the control o If the senate for a reduction in the size if the army but not such a reduction is was authorized by the house. In all it was train time" when you try to make a grade crossing. You must use eyes, not of an army of 140,000. This is not natively in accord with the recommendation of experts but it comes very close. tion of experts but it comes very close to it for it was maintained by them that the number ought not to be reduced below 150,000. The lopping off of 10,000 But you find that it was, and the injured hand or the dead companion is an awful price to pay to find it out. Every the number to 115,000 as decided in the gun is loaded that is handled carelessly.

ing their dangers. Just before the train came to the station my eye caught another poster: "A \$2,000,000 cigarette!" That didn't mean that it cost two million dollars to make that cigarette, or to light it, but it did many have planed and with but it is impossible to overlook the fact that there is danger in going too far in the way of cutting down the army and the many and the army and the plants is the same nothing gives and the country with the result was the destruction of the idea and the country with the result was the destruction of the idea and the country with the result was the destruction of the country with must get a proper amount of consideration.

We have agreed to reduce our navy in the least above themselves and the least above themselves and the least above themselves and the least above themselves are properly in accord with other countries, and in that it high time to put an end to this had habit of special town meetings the least above themselves; and in the country which must get a proper amount of consideration.

Neverth will do,

Neve

the matter goes to conference the wisdom of it ought not to be difficult to impress upon the house.

ANOTHER COMPLAINT AGAINST TURKS.

In connection with the limitation placed on the weight of auto trucks issing mass highways in some states and its agitation in others for the protection of the highways and the investments made therein, attention is direction of the highways and the investments made therein, attention is direction of the highways and the investments made therein, attention is direction of the highways and the investments made therein, attention is direction of the highways and the investments made therein, attention is direction of the highways and the investments made therein, attention is direction of the highways and the investments made therein, attention is direction of the matter by a parties has died a natural death. But I he same many matter by high at the same many matter by a like who said: "Love your enemies."

When they keep known and can be imitated as far as possible. When they have been personally collected the plants in one's garbut two ways of dealing with wrong. It is either 'an eye for an eye and tooth for tooth." It is "do good to them that have more individuality and are pleasant reminders of days spent in the woods or fields where the spectmens were that the plants were at the high woods or fields where the spectmens were that the former is more general than the latter.
